

## Learning From The Masters - About Mike Filsaime

Mike Filsaime is one of the top Internet Marketers today. He has built an Internet empire over the past 3 years, and it has made him a millionaire. How did he do it? Here's how:

Before going full-time online, his full-time profession was in the retail end of the automotive field. He was the General Manager of the 4th largest Hyundai dealership in the Nation that was part of a 13 store auto group. He worked in the automotive industry for around 14 years, and then, on November 11, 2004, he decided to take the plunge and go full time online.

Since 11/11/2004, he's taken his business from a one-man show to a staff of 9 people and over 25 profit pulling websites. He has also built a list of over 300,000 subscribers, and has plenty of rapport with all of the other big names in the field.

He attributes much of his success to the training and experience he gained in the automotive industry - and why not? He was the head sales trainer for the whole 13 store auto group, and he took many courses on negotiating and phone selling.

I think much of his success should be attributed to his brilliant marketing mind, his viral marketing techniques, and his ingenious websites that get him more and more subscribers every day. He makes more money per month than most people make per year. Shoot, he's been able to make more money with 2-4 emails at a time than most people make in a year. With sites like Instant Buzz, PayDotCom, and ListDotCom, Mike's success is sure to stay with him for many, many years.

Needless to say, Mike is an ideal Internet Marketer to watch, learn from, and emulate. He always has something new coming up, and he's always making money. He truly is one of the masterminds of Internet Marketing.
