

## Pros Secrets To Play Better Golf

Golf is a sport that is enjoyed by millions of people every day all over the world. For many years, men, women and children have taken part in the sport of Golf. There are professional golfers and not-so-professional golfers. There are expert golfers, intermediate golfers and beginners. No matter what level of golf we play, we all want to improve our golf game. The first step to propelling yourself towards competing with golf professionals is to learn and apply some specific principles of the game.

### The Principles of golf

What principles do I mean? Well these principles include a variety of areas, such as mental attitude, swing, and determination. Next, how much you are willing to practice? Why not start with the principle of developing a routine? As with anything in life, golf requires diligent application to master. It is suggested that you play golf a minimum of two times weekly. In order to get the most out of the sport of golf, four times weekly is best. This may seem like a lot, but keep in mind that it is a game you love and want to improve. Remember the old saying,

### Practice Makes Perfect ....

Well, it applies to golf, too.

### Change your Attitude Man!

Your mental attitude can literally make or break your golf game. You may be wondering at this very moment, why more people do not play better golf. After all, the game of golf is simple in concept, a ball on the ground, a club in your hand and other golfers watching quietly while you hit the ball. What is the big deal, right? Well, the main reason a golfer continually has a high game has to do with their mental attitude. In order play a better game, it is necessary to start from the beginning with a positive attitude. Beat the game, do not let it beat you.

Have you heard the stories of golfers throwing their clubs when a shot does not go the way they planned? I sure have, my own dad did that. It is exactly that type of mental attitude that hinders performance in a game. Allowing the game to frustrate you does nothing at all to the ball or club (except maybe break it and then what good is it), it only defeats you.

### The Swing of it all!

Finally, the way you swing your golf club has everything to do with the result of your golf game. If you do not learned the proper techniques of the swing, you will continue on the present road of your over par golf game. Without knowing exactly how you should be swinging, you cannot even hope to improve. Today`s golfers have listened to all of the hype, theories and stories surrounding the world of golf swings. It is all too easy to fall into the trap and never reach your goal of developing a good golf swing.

By learning and applying all of these main principals, you can begin to enjoy a golf game that is comparable to those played by the professionals.
