

## Chess Computers - Should You Get One?

The chess computer is a tool, a skill builder if you will. For those that truly enjoy the game of chess, there is no better partner to play with. While many that enjoy playing chess would like to own one of these computers, it should be said that they are often costly and often are complicated to use to a beginner computer user. But, for others, these are the most excellent of tools for your chess career.

### The Good

There are a number of benefits to owning your own chess computer. For example, you can play whenever the mood strikes you from early morning to the middle of the night. You don't have to wait around for your friend to be in the mood. You also have the ability to use tutorials that can help you to learn to play or to increase your own playing abilities with these computers. They are designed to allow for all sorts of play, so you get to do what you feel is necessary. You can also restart a game that has gone bad ;-)

### The Bad

There are some disadvantages of owning these computers as well. A chess player that is not human can not make the mistakes that a human can make. Therefore, the computer is a much more difficult competitor. Not only that, but they also do not prepare you for the reactions of human play. And, of course, they can be quite an investment as well. You can find various options to choose from, though, from software programs to complete programs.

### The Verdict

It's important to weigh the advantages and the disadvantages when it comes to computers like these chess computers. For many, the goal of owning a chess computer is only a dream. You should realize that they are mainly for those who are advanced players who are playing chess at the club level. Then again, to get to this point, many will need a chess coach. The chess computer can be the chess coach that you need to take your game to the highest level it can be at. If you have the funds for a chess computer and a true love of the game, making that purchase can put you one step ahead of the rest.
