

Electric Snowboarding Goggles: The Electric EG1 And Electric Wolfpack

The high end electric snowboarding goggles are usually quite high priced and one of them is the Electric EG1 that is a great fitting electric goggle that never seems to go out of fashion. These electric snowboarding goggles have a few advantages as well as a few disadvantages but, nevertheless, are a great value for your money. The advantages include a medium sized frame that can fit almost every rider, free rose lens as well as goggle bags, good packaging and is available in many frame colors as well as patterns and they are also compatible to be worn with helmets. The disadvantages are that the Orange Chrome lens may be too dark, especially under cloudy conditions, even though one can get a free rose lens instead; though it does take time to swap lenses and is rather expensive.

Different Colors And Patterns As Well As Helmet Compatible

With that said, these electric snowboarding goggles do come with many frame colors and patterns and have three layer face foam that gives an excellent fit. Its shoe-box type of packaging as well as a bonus pink lens and goggle bag makes it attractive and it is also available with Orange or Orange Chrome dual lens. The lightweight frames with single strap adjustments are also compatible to be worn with helmets.

The Electric EG1 snowboarding goggles have not changed their frame styles from when they were first introduced several years ago and still have many colors and patterns to choose from and are very cool and recognizable electric snowboarding goggles that range from mild to very wild, having very clean looks. One thing special about this electric snowboarding goggle is that it fits very comfortably and the frame really is very suited for all types of users - male or female. It also has vents that are big and are ideally suited for eliminating fog and works well with a helmet. Most high end electric snowboarding goggles are priced around \$100 and the Electric EG1 is also in that range.

Another fine electric snowboarding goggle is the Electric Wolfpack sunglasses whose design is bombshell-like and it is available in many colors that includes the classic Gloss Black and Gloss White and also has full wrap-around frame that works wonders in protecting the eyes from sunshine. This electric snowboarding goggle is wonderful when heading to Pipeline or just hanging about in the mountains. It has a sleek wrap-around style and is backed by the legendary Wolfpak and its solid construction makes it sturdy and is available in polarized with a soft bag for storage. This electric snowboarding goggle is bold and has a square look that is also very distinctive and also helps to block the sun from the sides.
