

Green Coast Northern Cyprus

If you are thinking of taking a trip to Northern Cyprus, you may want to consider staying at the beautiful Green Coast Holiday Village. Nicely situated on the outskirts of the pretty village of Alsancak with its own little stretch of man-made beach, the Green Coast Holiday Village offers something for everyone. You will want to have a car, though, as it is situated one mile from the nearest bus route.

Places to Stay and the Green Coast Location

The Green Coast is possibly the most scenic part of Northern Cyprus and, as mentioned, it is situated on the outskirts of the village Alsancak and it is pretty much secluded.

There are three types of accommodations in the Green Coast Holiday Village and these include bungalows, villas and studio apartments. The studio apartments have two bedrooms and there are forty-four of them altogether. They each have air conditioning, a heating system, a bathroom with and without showers and well-equipped kitchens, as well as a television and a telephone. There are also twenty-seven villas that have galleried first floor bedrooms. The bungalows have one bedroom and are fairly spacious.

As well as its own man made private beach, there is also a fairly large freshwater swimming pool, along with a large restaurant and bar next to the beach. The restaurant serves both Turkish and European food, so there should be something to suit all tastes. The bar is open all day, so you can refresh yourself at anytime during your stay. The Green Coast Holiday Village is ideal for both couples and families and it offers a secluded, beautiful location for you to really relax and enjoy your holiday.

Things to Do and the Holiday Village Facilities

The great thing about this Holiday Village is that it offers activities for everyone. No matter what your age, there is bound to be something to suit you!

Depending upon the weather, you have the chance to try out various water sports and there is also fishing and horse riding on offer too. Children especially enjoy horse riding, though always make sure you book lessons that are suitable for your ability levels. There is also a playground for children that will keep themselves entertained throughout their stay. There are also museums nearby, too, so you can provide yourself with some culture if you want to.

An advantage of the Village is that, although it is fairly secluded, there is a doctor there just in case any accidents do occur. There is also a Jacuzzi for you to relax in, a laundry service so you do not have to worry about washing dirty clothes and there is also live music for your entertainment.

Finally, if you have anything that you would like to keep safe, there is a safe deposit box for you to put valuables in. Overall, there are plenty of facilities and activities to keep you happy throughout your whole stay at the Green Coast Holiday Village. With so many accommodation options, there really is something to suit all budgets. This really is an ideal place to visit, relax and enjoy your holiday. So, if you have never heard of the Green Coast before and you would like to book a holiday now, the best place to book is <http://www.cyprusparadise.com>.
