

Vacuum Cleaner Attachments: Brands and Prices

The market for vacuum cleaner attachments is one of the most profitable industries in the world. Every year, new and improved models of vac machines are introduced in the market. These product introductions enhance the supplies and materials market by creating a need for additional tools that can fit hundreds of different cleaner models.

In the midst of the vacuum cleaner attachments business is the name Dyson. This vac machine manufacturer also specializes in producing parts that range from floor tools to dusting brushes. Among its offerings is the Low Reach floor tool designed for cleaning under beds, chairs and other low furniture. The tool fits all upright vac machine models from the brand and has a regular price of \$49.99.

Another popular name in the vacuum supplies industry is Eureka. The Power Paw turbo brush attachment, one of the brand's highest selling products, can be used on all types of carpets and rugs and is designed to remove pet hairs and dirt from stairs and upholstery. The turbo brush fits all Eureka vac machine models and can also be used in other brands like Bissell, Dirt Devil, Royal, Kenmore, Simplicity, Singer and Riccar. The product costs \$24.99.

Hoover is not only known for being one of the pioneers of the modern vacuum cleaner, it is also a popular choice when it comes to attachments and tools. The Hoover crevice tool product, which fits the brand's canister vacuum models and those that use a tab to secure attachments, is sold at a regular price of \$3.99. Aside from the crevice tool, the manufacturer also offers a floor brush attachment designed for Hoover canister vacuums. The brush is sold for \$12.99.

Shop Vac, which could give Hoover and Eureka a run for their money when it comes to attachments, has a vast array of cleaner supplies including extension wands, dusting brushes, crevice tools and gulper nozzles. The 906-14 extension wand from the company, which comes in packs of three, has a 1.25 inch connection and is compatible with Shop Vac utility vacuums and other vac brands with 1.25 inch connections. The regular price of this product is \$9.99.

The market for vacuum cleaner attachments continue to benefit from the increased number of vac machines introduced in the market every year. Since most of these parts need to be regularly replaced, the sector is not in any danger of losing profits any time soon.
