

## Allow Yourself To Succeed To Your Full Potential

You don't need another course on how to make millions in the stock market.

You don't need another program on how to get rich in real estate.

You don't need any more "secrets" of how to build a massive network marketing business... although my Students have done all these things and more.

You don't need any more information about "how to reach your goals"... although when you follow The Code, you will reach your goals as a matter of course.

You don't need any more courses on how to sell, how to make cold calls, or how to speak with confidence... although your ability to sell and your confidence level will naturally and dramatically increase as you follow The Code.

Now, are you ready for the biggest shocker of all? Here it is:

If you want to truly reach your full potential, you don't need any more "how to succeed" information at all.

I know that sounds crazy, even blasphemous to those people who've spent tons of money on every "how to succeed" program out there. But that's the very point. You've spent all that money, all that time, all that energy... And you're still not where you want to be.

You see, I'm not going to teach you any of those things, not because I don't want to. It's because I don't have to.

You have been told all you need to know about "how to succeed."

Now it's time that you ALLOWED YOURSELF TO SUCCEED to your full potential.

And, as you now know, you can't get that from another "how to succeed" program – because you can never solve a Why-To problem with a How-To solution.

### About the Author

On the night of October 20, 1997, a 30-year-old religious studies major named Noah St. John had an epiphany that changed his life. While attending a seminar, he suddenly realized the real, hidden reason so many smart, talented, motivated people stop themselves from success – and saw it had nothing to do with goal-setting, "motivation" or anything being taught in traditional success literature. That very night, with no formal education in business, Noah decided to form a company to teach people around the world the simple steps that remove the hidden barriers to success.
