

Stylish and Inexpensive Favors for Las Vegas Weddings

A popular part of Las Vegas Weddings is the reception that immediately follows the wedding ceremony. A reception is a great way to celebrate the union of two people and have a great time as they begin their lives together. One of the things a lot of wedding guests look forward to is the favor that they receive at the reception. This favor is a token of appreciation from the bride and groom and is often something that can be saved as a special memory from that day. Choosing wedding favors doesn't need to be difficult or expensive. There are many small items that make great favors and there are also many items that can be homemade without spending a lot of money. Knowing how to pick the best favors can save you a lot of time and money so you can enjoy your wedding.

Capturing Memories from Las Vegas Weddings

Many guests enjoy taking pictures at wedding receptions, so a great wedding favor can be a throwaway camera and a small photo album. The camera can be used to capture candid moments from the reception and the album can protect those treasured snapshots for years to come. You can get disposable cameras in packs of 2 or 4 to save money and many dollar stores carry photo albums of surprisingly good quality. This is a great way to save money and give guests a great favor.

Pairing Favors at Las Vegas Weddings

You can remind your guests of your union long after your wedding reception is over by choosing a wedding favor that is a pair of something. You can choose salt and pepper shakers, pairs of wine glasses, and other gifts that come in sets of two. This gives your guests something they will use for years to come that will remind them of your wedding and all of the fun that was had at your reception.

Custom Food & Beverage Favors for Las Vegas Weddings

If you want a customized wedding favor, you can choose food and beverages that have your names and wedding date on them. Candy bars, individual bags of coffee and tea, and other food items can have your custom information printed on the wrappers. You can select from an assortment of flavors so that picky eaters will be able to find something they like.

Custom Jar Candles

Jar candles are a great wedding favor because they're something that guests can take home and use again and again. The label on each candle can be customized with your names and wedding date to remind guests of your special day. Once the candles have been used, your guests can wash the jars and continue using them. This is a great favor because it's something guests can continue to use long after your reception and because you can choose from a wide variety of colors and scents.

Picking great favors doesn't have to be too difficult or expensive. Choose something that appeals to a wide audience and your guests will be sure to appreciate your thoughtfulness.
