

Fishing Adventures in Northern Ontario

Are you the kind who likes to sit for hours on the banks of a babbling brook, in the midst of still-standing time, waiting? Waiting for that prized trout that will eventually be ensnared by your eager little fish hook. If so, we would like to welcome you to Northern Ontario where you can be sure you will get to take that prized trophy home and brag about it for the next twelve years. Due to the sheer abundance of freshwater rivers, lakes, and streams teeming with fish of every possible type, Northern Ontario is your answer to an amazing fishing adventure.

Between the three rich regions of Northwestern, Northeastern, and North Central that are absolutely teeming with fish, Northern Ontario offers extensive waterways, channels, rivers, and so on. You could take a weekend fishing adventure drive in or fly-in to the lakes and waterways of northwestern Ontario. The region specializes in trophy muske, but walleye, lake trout, northern pike, bass, steelhead, and salmon are also found in abundance. Quenteco Wilderness and the Albani river distribution within the park is a good option for fishing in a laid back style in the backwaters amidst complete wilderness. For river fishing enthusiasts, meandering rivulets between the Marathon and Thunder Bay are ideal for fishing for trout and salmon. The Wabigoon Eagle Lake and Nipgon River area is frequented by flying fishing enthusiasts and experts as the areas are rich in trophy walleys, muskes, bas, and pike. The Samuel de Champlain Park offers a wide variety of fishing activity in its Long Lake where a variety of trout, bass, pike and herring hang out.

When talking of fishing adventures in Northern Ontario, talk of the magnificent Algonquin Provincial Park can't be far behind. This park is crisscrossed with water channels and you can enjoy fishing while taking noiseless canoe rides through them. Surrounded by wilderness, and completely isolated and cut off from the rest of the world, this is a haven for flying fishing aficionados, while angling experts can head to Killarney in Georgian Bay where they can practice their skills on pike, muskie, and bass.

Gone are those days when fishing enthusiasts would wade through swamps and undertake many a perilous journey to reach their favorite river hidden deep in the forest. Now you can still go along those fishing trails and have your little adventure, but Northern Ontario has become highly accessible through road and air and can make your fantasy fishing adventure a realized reality.
