

Sexy Sleek Looking Skin Tight Jeans

Sexy skin tight jeans, whether you are a fan or not it is the hottest jeans in town! Tight jeans have been popular since the 1980's, back then it was the fashion norm among the teens. Wearing tight skin tight jeans were the early Mod scene and very popular to both men and women especially among the youth culture fashions.

It came across America on the account of the Rock 'n' Roll boom during the 1950's. Elvis the king of rock 'n' roll shocked the country by donning tight jeans while showing off his famous gyrating moves. The skin tight jeans gave opportunity to people with 'bulging packages' to show off their assets. Men especially those who plays in rock bands are great fans of skin tight jeans giving them the impression of the 'bad boy' image such as the Rolling Stones and other popular heavy metal bands particularly thrash scene bands like Megadeath, Slayer, Anthrax and Metallica.

Skin tight jeans are also known in the early years in other terms such as skinny jeans, skinny pants, cigarette pants, slimjims, carrot leg pants, pencil pants, drainpipes, tapered pants, peg leg pants, ice cream cone pants and old school hood jeans.

Tight jeans have started to gain currency and the new concept of this denim is rather brave when it comes to the men's fashion. Skin tight jeans come long and lean and as tight as you may like. Blue denim jeans have always been the most popular tones but today color fashion of tight jeans are available with the coolest and hippest undertones.

Skin tight jeans are so tight it hugs the legs and a shape the bottoms of the person wearing the jeans appearing like it's almost a second skin. Women are so much into tight jeans, making skin tight jeans fast becoming the newest trend in town selling like hotcakes in the market now. Tight jeans are very stylish in a way that somehow it makes a lot of people look a lot thinner, enhancing the shape of the body into a more curvaceous form. There are also skin tight jeans stitched and cut into different styles that enable figure enhancements and makes miracles in camouflaging unwanted body features.

A person who wants to achieve a slimmer impression will be more successful with the right pair of skin tight jeans. Stretch denim jeans are also very hot in the market, it is considered to be the second best selling when it comes to clothing items. The materials of stretch denims are very popular in cotton and spandex fabrics and the common combination of the materials of stretch denim jeans constitutes of 1% spandex, 28% polyester and 78% cotton.

If you are aiming for the sleek look, cotton-Lycra blends of stretch denim jeans are the right pair for you. There are also artistically designed skin tight jeans available in the market. You can have these skin tight stretch denim jeans in floral, beaded and embroidered. A pair of tight jeans that has a light tone at the thighs thru the knees will give your legs a shapelier looking form.
