

Real Darts for Computer Geeks

Are you computer geek? Tired of playing games on the screen? Play real darts but still use the hi-tech software to rule the game!

Stop sitting in front of the computer and get a real physical challenge with the game of darts. Train your eye and exercise marksmanship in the real world, compete with real people and track your progress with a powerful gadget. [Darts CLUB software](#) keeps track of your performance and the performance of other players when playing real darts. Every game and every throw are accounted for. Who's the best player out of your company? Who's the best overall? Who's progress is faster, and what is your best throw? Darts CLUB provides honest answers to these and many more questions that serious darts players are asking all the time.

Darts CLUB keeps an eye on the players and their throws. Applauding the good throws and calmly ignoring the unlucky ones, Darts CLUB calculates the average darts score for every player.

Are you close to finish? Darts CLUB will recommend the next throw for the most effective going-out! The difficult part of the game of darts is the finish. You must zero your points before your opponent does it, but you can't go below zero and you must hit a double with the last throw. Complicated enough for a human being, but not to a computer empowered with a smart program! Darts CLUB is a darts scorer that will give you darts tips on exactly what targets to hit and in what order to win the game with the remaining points. If you miss a throw, it'll recalculate your strategy and still give you chances.

Do you and your friends have to be computer geeks to use the darts scorer during the contests? Darts CLUB interface is so simple while the results are so powerful that even non-geeks can use the program with great success! The darts software draws a darts target that looks exactly like the original. All you need to do is telling the players' names and clicking the spot hit with a real dart on a real target, and Darts CLUB will do the rest.

Darts CLUB can be easily used in popular clubs thanks to unlimited size of the player database. It'll still keep the statistics, show the best players and the best throws, and keep track of the progress for every player. Full avatar support allows assigning a picture to each player for making perfectly looking champion charts.

Convinced already or want a real proof? Get a copy of Darts CLUB at <http://darts-club.com/> and get real with the game of darts!
